From the INTERNATIONAL BUREAU

PCT

NOTIFICATION OF TRANSMITTAL
OF COPIES OF TRANSLATION
OF THE INTERNATIONAL PRELIMINARY REPORT
ON PATENTABILITY
(CHAPTER 1 OR CHAPTER II
OF THE PATENT COOPERATION TREATY)
(PCT Rule 72.2)

SCHAUMBURG, Karl-Heinz Postfach 86 07 48 81634 München ALLEMAGNE

EINGEGANGEN

2 2. Juni 2005

Date of mailing (day/month/year) 16 June 2005 (16.06.2005)

Applicant's or agent's file reference 2002-1030 P

International application No. PCT/EP2003/011906

IMPORTANT NOTIFICATION

International filing date (day/month/year) 27 October 2003 (27.10.2003)

Applicant

OCÉ PRINTING SYSTEMS GMBH et al

1. Transmittal of the translation to the applicant.

The International Bureau transmits herewith a copy of the English translation made by the International Bureau of the international preliminary examination report established by the International Preliminary Examining Authority.

2. Transmittal of the copy of the translation to the elected Offices.

The International Bureau notifies the applicant that copies of that translation have been transmitted to the following elected Offices requiring such translation:

CN

The following elected Offices, having waived the requirement for such a transmittal at this time, will receive copies of that translation from the International Bureau only upon their request:

EP, JP, US

3. Reminder regarding translation into (one of) the official language(s) of the elected Office(s).

The applicant is reminded that, where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report.

It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned (Rule 74.1). See Volume II of the PCT Applicant's Guide for further details.

In this report reference is made to the following search report citation:

Claims

Claims

- D1: WO 01/91398 A (EHLERS GAVIN WALTER; SMUTS WALTER BAM (ZA)) 29 November 2001 (2001-11-29)
- 1.1 Claim 1 relates to a method for the authentication of a data processing system with the aid of an authorisation server.

D1 discloses a similar method where a user is only allowed access to a server once the user and an authorisation server have transmitted the same password to the server.

The subject matter of claim 1 differs from the subject matter of D1 in that the data processing system to be authenticated itself generates the authentication information - with the aid of the authorisation servers.

The problem addressed can therefore be considered that of authenticating a data processing system without the need to transmit the authentication

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

information from the authorisation server to the user and to the server.

Since no such solution to the problem of interest is mentioned in any of the prior art documents, the subject matter of claim 1 satisfies the PCT requirements for novelty and inventive step (PCT Article 33(2) and (3)).

- 1.2 Claim 21 discloses an arrangement for carrying out the method as defined in claim 1. Claims 22 and 26 disclose a method and an arrangement, respectively, as in claims 1 and 21, wherein the first and second data processing systems are disposed in an electrophotographic printing or copying system, or rather in an operator station thereof. These claims therefore also satisfy the PCT requirements for novelty and inventive step (PCT Article 33(2) and (3)).
- 1.3 Claims 2 to 20 and 23 to 25 are dependent on claims 1 and 22 respectively and therefore also satisfy the PCT novelty and inventive step requirements.
